

ITIL Foundations Training

The ITIL Foundations class is a valuable certification for technical project managers, providing a solid introduction to this popular framework for delivering IT services. Co-organized with Leadership Techniques, and using licensed materials from ITSM Solutions, this class will be taught by Andy McCann.

Andy is a certified ITIL instructor, and received his ITIL Expert Certification in 2010. He has taught this class over thirty times in the past few years.

On the last day of the 3-day of class, attendees will take the certification exam. The class size will be limited to 20. Participants are eligible for 18 Technical PDUs.
